SKILLS

HTML	HTML5	CSS| CCS 3	JavaScript	React JS

Tailwind CSS | Bootstrap framework   API   Git | GitHub

SUMMARY

Here are the details you asked me to remember:

• Innovative: Continuously finding creative solutions to complex problems.
• Proactive: Taking the initiative to improve code, design, and processes.
• Analytical: Applying logical thinking to solve technical challenges.
Creative: Bringing unique ideas and perspectives to web design and development.
Web Developer (Frontend) with a BCA degree and strong expertise in HTML, CSS, HTML5, JavaScript, React, Tailwind CSS, Bootstrap, Git, GitHub, APIs, and MongoDB. Eager to bring enthusiasm, adaptability, and a fresh perspective to a dynamic team, aiming to contribute effectively to innovative web development projects.

EXPERIENCE

Volunteer

Lighthouse Foundation

📅 12/2023 - 07/2024   📍 Mumbai

Volunteered at a local non-profit organization, Developed and maintained user-friendly websites and web applications for [non-profits, community groups, etc.], Collaborated with team members to design and implement responsive web pages using HTML, CSS, JavaScript, and React. Led the redesign of the organization's website, resulting in a 30% increase in user engagement and a 20% reduction in bounce rates.

CERTIFICATION

Frontend development

SimpliLearn | ShillUp

Front-end development is the practice of creating the visual and interactive aspects of a website or web application that users see and interact with directly in their web browsers. It involves a website's design, layout, and functionality, ensuring that it is responsive, user-friendly, and visually appealing.

HTML, CSS, JavaScript, React.

EDUCATION

Bachelor of Computer Applications

PROJECTS

Ecommerce Website Project

I architected a robust, responsive e-commerce solution leveraging React, Tailwind CSS, and Redux for state management, integrating Auth0 for secure user authentication, and employing React Router DOM for seamless navigation to deliver a frictionless shopping experience.

Tourist Website Project

A modern, responsive tourist website was architected using React, employing Tailwind CSS, React Icons, and AOS to craft an immersive visual experience, while Web3Forms, React Router DOM, and DaisyUI provided the structural and aesthetic framework, resulting in a secure, intuitive, and high-performing platform.

Education Website Project

I have developed a robust, responsive education platform utilizing React, Tailwind CSS, React Icons, Material UI, and React Router DOM. The application boasts a sophisticated user interface, dynamic interactions, fortified form security, and seamless navigation.
